Re: Perth Amboy Recharge Plan

Dear Charlie:

At our recent meeting with representatives of the New Jersey Department of Environmental Protection and Energy ("Department") and USEPA on March 30, 1993 we discussed the issue of recharge into the Runyon Watershed. Based on discussions at the meeting, it appears the Deartment may be reconsidering its position on the timing of the implementation of the Recharge Plan. In view of this development, before the City of Perth Amboy considers the recent request for its endorsement of the CP-1 Application and the Draft NJPDES permits, we would request that you provide us with your position regarding Recharge.

We will assume that the 90-day comment period will not begin to run until the Department clarifies its position regarding Recharge.

Very truly yours,

MARAZITI, FALCON & GREGORY

James R. Gregory
